

Accident insurance

Don't let an accident hurt more than it should

Accident insurance offers additional financial protection by providing a cash payment directly to you if an accident occurs.

Why would you need accident insurance?

Accident insurance is a cost-effective way to help with the expenses above and beyond what your health insurance plan covers. These expenses can include health care deductibles, groceries, child care, dog sitter, travel expenses and more.

Key benefits

- \$50 health and wellness benefit available to everyone insured for completing an eligible health screening, including an annual exam
- Multiple cash payments may be received for accidents throughout the year
- Additional payments may be available if also enrolled in critical illness and hospital indemnity insurance
- Many accidents are covered, including injury and hospital care benefits, child and adult organized sports, emergency care and follow-up care
- Cash payments paid directly to you to use for medical and non-medical expenses

Here's an example of how it works*

Janet elects the high plan for herself offered by her employer.

Janet slips off a stair and takes a tumble. She breaks her lower leg (requiring surgery). She also has a concussion and spends two days in the hospital (non-ICU).

Janet submits a claim and gets a \$7,000 payment from Securian Financial.

Janet uses the money to pay her mortgage and hire a cleaning service.

*Actual experience and benefit payouts may vary from this example.

What does your accident insurance plan cover and how much will you receive?

It provides a cash payment to help you offset expenses that occur due to an accident.
